

GUTenberg contributes to the **development** of L^AT_EX (in particular with the T_EX **live** distribution) and to the **French adaptation** of the softwares. It organizes **meetings** where its members and developers can exchange experiences and tips, and discover the latest developments.

GUTenberg provides **several websites** and **mailing lists** where you can:

- find tips, and benefit from the experience of other users;
- discuss all aspects of (L^A)T_EX and companions, the life of GUTenberg association, typography and other topics with two mailing lists gut@ens.fr and adherents@gutenberg-asso.fr;
- consult the publications of GUTenberg, in particular those of the *Cahiers* and those of the *Lettres*;
- ask questions or find answers on texnique.fr;
- participate in a collaborative way in the enrichment of the French-speaking FAQ.

Join us and become a GUTenberg member of the GUTenberg!
